

March 2004

Full speed ahead - RAYLASE AG still on course for success

Wessling. Whereas German companies complain in unison about the bad economic environment, RAYLASE AG in Wessling are proving that things can be different. Despite these difficult times, the creative team before the gates of Munich has been able to significantly increase turnover and profits. What's more, RAYLASE AG is expecting a healthy growth for the current business year. Individual solutions, excellent customer service, innovative research and world-wide sales make RAYLASE AG an interesting business partner in the laser industry. Thanks to the economic success, the number of employees has grown from four in the year of its foundation (1999) to twenty. One year ago, RAYLASE AG became too big for its older premises and moved to a larger site in Wessling where there are now no limits to its innovative spirit in this beautiful landscape.
