RAYLASE and Azpect – A Partnership for Northern Europe

RAYLASE AG, world-wide trend-setting in developing modular components and electronic devices for deflection and modulation of laser beams, closed a distribution contract with Azpect in Södertälje, Sweden for the exclusive selling of RAYLASE products in Scandinavia and the Baltic states. Azpect is a capable trader for Northern Europe, whose strength lies on the one hand in a strong market operational readiness level, which covers the complete north. On the other hand the engaged sales and support personnel has in Scandinavia an excellent reputation. Thus Azpect is the perfect partner, in order to present and establish the high-qualified and technical innovative products of RAYLASE in Denmark, Sweden, Finland, Norway and the Baltic states. With Northern Europe RAYLASE opened a new sales area, which shows already active interest in RAYLASE products.
